¹ Wage index values are based on FY 1997 hospital cost report data prior to reclassification. This wage index is further adjusted. Wage index values greater than 0.8 are subject to a budget neutrality adjustment of 1.04662. Wage index values below 0.8 are adjusted to be the greater of a 15 percent increase, subject to a maximum wage index value of 0.8, or an adjustment by multiplying the hospice wage index value for a given area by the budget neutrality adjustment. All of these adjustments have been completed by HCFA and are built into the wage index values reflected in above.

¹ Wage index values are based on FY 1997 hospital cost report data prior to reclassification. This wage index is further adjusted. Wage index values greater than 0.8 are subject to a budget neutrality adjustment of 1.04662. Wage index values below 0.8 are adjusted to be the greater of a 15 percent increase, subject to a maximum wage index value of 0.8, or an adjustment by multiplying the hospice wage index value for a given area by the budget neutrality adjustment. All of these adjustments have been completed by HCFA and are built into the wage index values reflected in above.
